My Peace Corps Experience: Public Health Educator in Sendrisoa

Beneficiary Meeting

Ambohimamasina High School

Ambalavao High School

College Agricole

Miaranarivo

Meeting with the students

Sendrisoa

Sendrisoa

Amanda with the students in sendrisoa

Potential Thoughts/Suggestions from the Trip

- Importance of financial planning for kids
- Make income generation an official part of the program (with the exception of kids in the College Agricole, since that program is more expensive and kids have source of income after graduation)
- Increased non-academic trainings
- Possibility of holding trainings at a time other than during youth camp
- Possibility of assisting students with stage after Bac if they can't go to university
- Better education/training related to goals
- More exercises to practice lessons.
- Regular discussions with kids about their needs, improvements they would like to see, problems, etc..., maybe every three months or so
- Additional tutoring in areas like math, particularly for students outside of Ambalavao.
